

- keeping your Home, Farm, and business running efficiently—no matter the weather!
- Low-RPM Wind Turbines & high-efficiency – Compatible Solar Systems
- Complete turnkey installation & support Well-Engineered & manufactured in Cape town.
- Eco-friendly & cost-effective energy solution
- 🗣️ Harness the power of the wind and sun as combined Energy! 🌞🌬️
- Peace of Mind Power your future today. 💡🔌

GTX-1kW	Vertical Wind Turbines - with Efficient Low RMPs Powerhouse	Voltage	Power	Units	Total
GTX-1kW	GTX - 1kW Low RPM Generator - Popular ↗ Good for Inland & Coastal	220V/ 350V	2000W	1	R26 911,00
CNTL-1kW	GT On-Grid Controller - ↗ or Off-Grid Controller	48V	2 & 5kW	1	R10 350,00
GTX-1.5kW	Vertical Wind Turbines - with Efficient Low RMPs Powerhouse	Voltage	Power	Units	Total
GTX-1.5kW	GTX - 1.5kW Low RPM Generator - Popular ↗ Good for Inland & Coastal	220V/ 350V	2000W	1	R30 339,00
CNTL-1.5kW	GT On-Grid Controller - ↗ or Off-Grid Controller	48V	2 & 5kW	1	R10 350,00
GTX-2kW	Vertical Wind Turbines - with Efficient Low RMPs Powerhouse	Voltage	Power	Units	Total
GTX-2kW	GTX - 2kW Low RPM Generator - Popular ↗ Good for Inland & Coastal	220V/ 350V	2000W	1	R38 277,00
CNTL-2kW	GT On-Grid Controller - ↗ or Off-Grid Controller	48V	2 & 5kW	1	R10 350,00
GTX-3kW	Vertical Wind Turbines - with Efficient Low RMPs Powerhouse	Voltage	Power	Units	Price
GTX - 3kW	GTX - 3kW Low RPM Generator - Popular ↗ Good for Inland & Coastal	220V/ 350V	5000W	1	R56 215,00
CNTL-3kW	GT On-Grid Controller - ↗ or Off-Grid Controller	48V	2 & 5kW	1	R10 350,00
GTX-5kW	Vertical Wind Turbines - with Efficient Low RMPs Powerhouse	Voltage	Power	Units	Price
GTX - 5kW	GTX - 5kW Low RPM Generator - Popular ↗ Good for Inland & Coastal	220V/ 350V	5000W	1	R79 339,00
CNTL-5kW	GT On-Grid Controller - ↗ or Off-Grid Controller	48V	2 & 5kW	1	R13 800,00

Items that are Not Included - are the batteries, Invertor or Pole - and the Installation is not included.
